

## HOW TO PLAY BLACKJACK

- Insert cash or ticket into the bill acceptor.
- Touch your desired chip value on the screen and place it on the main bet circle.
- Touch your desired chip value on the screen and place it on the sidebet circles – Bet the Set “21”, Royal Match 21, or both!
- Once all wagers are made, the betting clock will reach zero and the game begins.
- Electronic dealer deals each player two cards and deals herself two cards, one facing up.
- If the electronic dealer’s first card is an ace, INSURANCE is offered. Select YES or NO if you’d like insurance.
- If the electronic dealer has a Blackjack, the dealer reveals his/her second card and the game ends. Insurance bets are paid. Player Blackjack hands that are not insured are pushed. All other bets lose.
- If the dealer does not have Blackjack, the dealer does not reveal his/her second card and the game continues.
- Press the HIT button to receive another card, or press the STAND button to end your turn.
- Players that beat the dealer are paid. (Press the Pay Table button to view payouts.)

NOTE: See Game Play/ Rules for more specific information on how to play Electronic Blackjack.
